**CDBG  
Community Development Block Grant Program****MANAGEMENT MEMORANDUM  
Memorandum Number: 00-5****TO: All Eligible Jurisdictions and Interested Parties****DATE: June 1, 2000****SUBJECT: Notice of Funding Availability (NOFA)  
CDBG Planning and Technical Assistance (P/TA) Allocation  
Fiscal Year July 1, 2000 - June 30, 2001****NOFA/Program Purpose:**

This memo constitutes the Notice of Funding Availability (NOFA) for the Planning and Technical Assistance Allocation for Fiscal Year 2000/2001. P/TA provides funding in the form of grants to small cities and counties for planning and feasibility studies related to CDBG eligible activities such as housing, public works, community facilities, and economic development.

**Funds Available:**

The State Department of Housing and Community Development announces the availability of funding under the 2000/2001 CDBG Planning and Technical Assistance (P/TA) component. The Department will make \$2,797,216 available under the General/Native American Allocation and \$1,326,690 under the Economic Development Allocation.

**HUD National Objectives**

- Activities must meet a HUD national objective:
  1. Targeted Income Group (TIG) Benefit. This means that if the P/TA study were implemented, at least 51 percent of the persons who benefit from the implementation earn less than 80 percent of the area median income.

CDBG publishes annual income limits by county. These are in the Attachment 9 of the Application Package and are also available on HCD's Home Page.
  2. Preventing slums and blight. This means aiding in the prevention or elimination of slums and blight.

- G/NA P/TA studies are restricted to meeting only the first objective.
- ED P/TA studies can meet either of the two objectives.
  - If the ED objective is to benefit TIG, then the planning activity must be reasonably related to an economic development activity which could result in the creation or retention of permanent, private sector jobs that will be principally (51 percent) filled by TIG persons; or
  - The State CDBG program must make the determination that the proposed planning activity is reasonably related to an economic development project that would result in the elimination or prevention of a slum or blighted condition.
